Halton has always been a welcoming and inclusive place to live and work and is becoming a more diverse community. Help us celebrate this.

This is your chance to share those good news stories of people who are good neighbours. Those local heroes in your street / community / school / college / organisation.

We are especially looking for people who are welcoming and inclusive to other people in our community that may have more need and are also encouraging anyone to pass on any worries they may have if they know someone is at risk of harm.
