- To receive, oversee and monitor action plans from agencies to implement recommendations from safeguarding adults or critical incident reviews

- To examine national SAR Reports in order to inform and improve local practice and ensure that learning from national information is incorporated into local policies and procedures
- To take an approach which is rooted in organisational learning and does not seek to apportion blame
- Where appropriate the SAR Group will work in collaboration with the Safeguarding Children's Boards to ensure that learning from serious cases and reviews are shared

FUNCTIONS

- The Safeguarding Adults Review Group will have a central role in developing and implementing the Halton Multi-agency Safeguarding Adults Review (SAR) Protocol and in promoting a culture of continuous learning and improvement across the partnership.

- The SAR Group will consider relevant local and national information regarding serious cases and ‘near misses’ in order to inform and improve local practice by ensuring that learning is incorporated into local policies and procedures. The Group will also have an overview of good practice examples to ensure that good practice is disseminated.
- In order to learn lessons from incidents it is important that agencies share relevant information with the Safeguarding Adults Review Group. The Group is appointed by, and acts on behalf of, the Safeguarding Adults Board (SAB) which has a statutory duty to arrange Safeguarding Adults Reviews in the circumstances described:

The Care Act 2014 s.45 places a *duty* on others to provide information to the SAB to enable it to carry out its functions. The Act is clear that if a SAB requests information from an organisation or individual which is relevant to its functions, then they must share it with the SAB. This is so any problems can be tackled quickly, and lessons can be learnt to prevent them happening again.

- Members and attendees of the Safeguarding Adults Review Sub Group must adhere to the expectations of the group in relation to confidentiality as follows:

Information discussed by the agency representatives within this meeting is strictly confidential and must not be disclosed to third parties without the agreement of the SAR members.

All agencies should ensure that all minutes and related documentation are retained in a confidential and appropriately restricted manner. These minutes will aim to reflect that all providers and, where relevant, individuals who are discussed at these meetings should be treated fairly with respect and without improper discrimination.
